Hi [redacted],

A colleague here in the submarine agency passed on your details and suggested we reach out to you.

We're currently consulting a draft report following a review to inform the decision-making process to identify locations in the current or future Defence Estate suitable for the storage and disposal of intermediate and high-level radioactive waste, including spent fuel, generated by Australia's nuclear-powered submarines.

Steve Grzeskowiak (former Deputy Secretary responsible for Defence estate and infrastructure) has chaired the review process with a small team of experts from ASA, Defence, ARWA, ANSTO, Geoscience and others. [redacted] ss 47C & 47E(d)

We'd be keen to get ARPANSA's comments and views ahead of this broader consultation. Welcome comments by COB Friday 27 October if possible – and happy to organise a time to catch-up if you'd like.

[redacted] ss 47C & 47E(d)

Thanks
