Hi s22

Any chance you might be able to provide the list of questions/clarifications that you require before the meeting, maybe a day before? This would allow the guys to come fully prepared with the answers for the meeting, and not have to take anything on notice and get back to you later.

Hello

Would we be able to pencil in a skype meeting on the licence application for the W/C 01/04/2024 please (if people are at work post Easter break that is). The purpose would be to clarify some details of the application.

It would be good to have s22 there for a start and if I think of any more queries, I will ask to add people. If we can't get everyone together at once it's no problem, we can do a few meetings. I think an hour is all that is needed and it probably will not take that s22

Thank you
