Hi s22 ,

I had a great xmas period, I hope you did as well!

I had no significant feedback on the security plan when I reviewed it before Xmas.

Moving forward I think I would be keen to review the next update of the SAR and to see the Effective Control Plan (when they are ready of course)

Thanks so much

OFFICIAL

Good morning s22

Hope you had a relaxing break over the Christmas and New Year period!

I have a meeting this afternoon with the authors of our security plan for the SRF West Siting Licence Application and they have asked me if you have any feedback points following the review/read through you conducted in the last week of last year.

Would appreciate any dot-points or feedback you were able to provide that I can pass on.

Thank you!

Regards,

s22

OFFICIAL

Hi s22

We have discussed your below request and the ASA has agreed to let you take printed copies of the draft documentation under the proviso that:

- it is not classified above Official: Sensitive (some documentation is Protected), and
- there is a clear plan for how the documentation will be utilised and destroyed once no longer required.

I am happy to discuss and clarify both these points tomorrow when you visit Canberra.

Safe travels!

Regards,

s22

Subject: ARPANSA Reg expectations - Hazard assessment case study FYI and source term [SEC=OFFICIAL]
Attachments: s22 Assessment.pdf

Hi all,

Some more supplementary information regarding regulatory expectations. Please find attached a copy of a hazard assessment s22 has done for s22 facilities as a case study for information – which is related to point 8 in the email below. As part of our regulatory review we will likely conduct our own verification assessment. Please let me know if you want to speak to one of our modelling team about any aspect of your own assessment, they are happy to discuss.

One thing I forgot to put below (for point 5) is that when the source term is documented, please provide some words in the SAR or waste management plan on how the activity levels match up against our requirements for a Prescribed Radiation Facility. Am assuming they will be below this given the discussion which has taken place previously, but I haven't seen the calculations to date.

Any questions please give us a call

Kind regards

Subject: RE: ASA Licensing Timeline, Dates for Completing Objective Training and Site Visit to SRF West [SEC=OFFICIAL]

Hi s22

Thank you for helping me with the system set up today. It wasn't an inconvenience at all. We note the timelines below and thank you for sharing. I know you are likely moving to your new role this week so thank you for all your assistance and hosting of myself and colleagues regarding the ASA etc. It has been great working with you

In terms of times when I can come down to complete the training and discuss any other regulatory expectations that your colleagues might want to raise before the Christmas Shutdown I can do:

Any day next week apart from Wednesday or Thursday (although at a push I can rearrange Thursday if needed).
Any day the week after apart from Friday 22nd December.

One other thing now that the licence submission date is more concrete, is to request a site visit to SRF West which I can discuss with your colleagues when am next in Canberra.

Kind regards and good luck in your new role if I do not see you
